

JOREN P. MONTEJO

Davao City, Philippines | j.montejo.543732@umindanao.edu.ph | 09261101105 | [Portfolio Site](#)

SUMMARY

A Computer Science student at University of Mindanao entering the final year, with experience in front-end, full-stack development, and UI/UX design. Skilled in building user-friendly interfaces using Figma and continuously improving through self-directed learning. Possesses foundational backend knowledge and is eager to expand expertise across multiple programming languages while contributing to real-world projects.

RELEVANT PROJECTS

Full Stack Developer - Water Refilling Station POS System – JZ Waters

Github: (<https://github.com/joreenn/JZ-Waters>)

Technologies : JavaScript, Next.js, React, Node.js, Express.js, MySQL, Tailwind CSS, Socket.io, JWT Authentication, Nodemailer, PDFKit, Recharts, Git/GitHub.

- Implemented multi-role authentication and authorization using JWT.
- Developed POS, inventory, and delivery management with transaction tracking, stock monitoring, driver assignment, and real-time updates.
- Integrated loyalty rewards and subscription system with automated recurring order generation.
- Built analytics dashboard with automated email notifications and PDF/CSV reporting.

Software Development - CS10 Simulation Project (Hospital Operation)

Github : (https://github.com/joreenn/CS10_Simulation)

Technologies : JavaScript, HTML, CSS, React

- Built an interactive simulation system with dynamic state management and real-time updates.
- Implemented automated logic and calculations for scenario-based outcomes.
- Designed a user interface for input handling and visualization of results.
- Enabled data tracking and responsive system behavior based on user interaction.

Full Stack Developer - Tenant Management System - SammiesApt

Github : (<https://github.com/joreenn/SammiesApt>)

Technologies : React, Laravel, PHP, MySQL, REST API

- Built a full-stack tenant management system with CRUD operations and RESTful API integration.
- Implemented avatar uploads, image handling, and real-time form validation.
- Developed validation rules for tenant data, including unique room assignments and contact verification.
- Designed a responsive dashboard with inline editing, modal forms, and notifications.

EDUCATION

Bachelor of Science in Computer Science

University of Mindanao

August 2023 - Present

Relevant Courses: Data Structures, Web Dev, Databases, Software Engineering, Simulation and Modeling.

SKILLS

Languages	JavaScript, PHP, HTML, CSS
Tools/Frameworks	React.js, Node.js, Laravel, Tailwind CSS, RESTful API
Databases	SQL, Git/Github, Recharts
Other Skills	CRUD system design & implementation, UI/UX implementation, System automation

CERTIFICATES

- Information Technology Specialist in Cybersecurity (Certiport 2026)
- Information Technology Specialist in Databases (Certiport 2025)
- Information Technology Specialist in Network Security (Certiport 2026)
